

UCESCO-AFRICA

To whom it may concern,

I am writing this letter to recommend Zheng Dong having worked with UCESCO-Africa for the period of 2 weeks. She started her volunteering at UCESCO Africa's main office in Nairobi, Kenya on 8th September 2022 to 20th September 2022. Considering Zheng Dong excellent work period in the organization and her profound interest in professional career growth, I would highly recommend her candidacy for any program she may plan to undertake.

During her time at UCESCO -Africa, Zheng Dong was assigned to work in several different programs in Kibera district, Nairobi, and I had the privilege of directly supervising her and observing her work under stressful and demanding conditions. Zheng's job consisted of teaching programs especially in Math and mentorship of small micro businesses.

Further on, Zheng Dong was actively involved in empowerment of women groups whose aim was to help the women develop their soft skills talent and initiate small scale sustainable businesses. In the framework of this program, Zheng Dong participated in activities of giving back to the community through different schools within Kibera. She also participated in mentorship sessions. On a somewhat personal note, Zheng Dong is a bright, enthusiastic, and intelligent young lady with excellent discipline and organizational skills. I can confidently say that she is one of the best volunteers we have had so far.

I fully support Zheng Dong's aspirations to pursue whichever career she chooses as she consistently showed deep interest to learning and growing her career skills. I strongly believe Zheng Dong possesses all the essential qualities to become a valuable member of the society and a professional career woman. Should you need any additional information on Zheng Dong, please feel free to contact me.

Yours sincerely,

Vanessah Ndami

General manager & Development director
